WHO SAYS, “THEY DON’T BUILD THEM LIKE THEY USED TO?”

AIR CONDITIONERS | FURNACES | HEAT PUMPS | AIR HANDLERS

REAL LIFE TESTED

MORE THAN 250,000 HOURS OF RESEARCH AND TESTING IN EXTREME WEATHER CONDITIONS TO ENSURE LONG-LASTING, RELIABLE PERFORMANCE.

UNBEATABLE WARRANTIES

OUR HOME COMFORT SYSTEMS ARE BUILT TO THE HIGHEST STANDARDS AND BACKED BY WARRANTIES THAT LEAD THE INDUSTRY.

CUSTOMIZED TO YOU

WHETHER YOUR NEEDS INCLUDE A BUDGET FRIENDLY OPTION OR A MORE CUSTOMIZED HOME SOLUTION, WE’VE GOT YOU COVERED!

SUPERIOR QUALITY

PRODUCTS BUILT UPON YEARS OF MANUFACTURING EXPERTISE, STATE OF THE ART TESTING AND THE HIGHEST IN QUALITY CONTROL STANDARDS.

Imagine a cozy, quiet and energy efficient home where indoor air quality is never a worry. All you and your family have to do is relax and be comfortable.

That's the peace of mind you get with ClimateCare's complete home comfort solutions. All of the products we install and service are designed and manufactured by leading industry partners right here in North America, where we can closely monitor and review the quality.

In fact, we put the same furnaces, air conditioners, heat pumps, and air handlers that we would install in our homes and yours, through rigorous testing such as extreme weather conditions and corrosive environments. It's this commitment to excellence that allows us to offer outstanding warranties, meet the highest industry standards, and deliver energy saving comfort that is built to last.

That's why, when it comes to home comfort, your confidence and comfort is our commitment.

UNMATCHED COMFORT: **AIR CONDITIONERS**

Count on unmatched comfort, time-tested performance, and exceptional energy savings in air conditioners that are designed and assembled right here, in North America.

- **Cost efficient** – Save up to 41 cents per dollar with our enhanced-efficiency 17 SEER systems and 50 cents on our 21 SEER systems versus older, 10 SEER units.
- **Rigorous testing** – Reliable operation with robust scroll compressor technology proven in our extreme, five-year accelerated test facility.
- **Long-lasting** – Powder coat paint provides a durable, automotive-quality finish that looks great, even after years of outdoor exposure.
- **Durable** – Steel coil guards provide maximum damage protection to protect your investment.
- **Quiet** – Direct-drive fan design minimizes vibration and sound.
- **Superior air transfer** – Coil options with effective airflow and heat transfer.
- **Efficient design** – Compact cabinet does more in less space.

SAFE FOR THE ENVIRONMENT

OUR AIR CONDITIONER R-410A REFRIGERANT IS ENVIRONMENTALLY FRIENDLY, DOESN'T HARM THE OZONE, AND KEEPS YOUR SYSTEM IN TOP PERFORMANCE!

MICROCHANNEL DESIGN

This revolutionary technology features 16 channel rugged microtube all-aluminum coil design (similar to those used in cars today) for superior performance, turning your home into a cool retreat during hot summer months.

Benefits include:

- Improved heat transfer
- Smaller compartment size and weight
- Reduced refrigerant charge
- Durable and easy to service
- Advanced corrosion protection

COMPLETE CONTROL WHEREVER YOU GO

A WARMER EXPERIENCE IS WAITING: **FURNACES**

When it comes to providing for your family we know that true comfort comes from a place of security and trust.

- **Saves money** – Cut heating costs up to 40% through ENERGY STAR® approved furnaces.
- **Efficient blower** – Standard ECM fan motor improves performance and reduces electricity use, while premium variable speed ECM motors can be fine-tuned to your specific comfort needs.
- **Double the performance** – Two-stage gas furnaces can shift their level of performance to track temperature more accurately and provide greater comfort.
- **Reliable heat exchange** – Advanced, tubular aluminized steel heat exchange allows for quick heat transfer, outstanding efficiency, and unbeatable longevity.
- **Less waste** – Hot surface ignition technology doesn't waste fuel. Self-cleaning inshot burners regulate the fuel mixture to ensure efficient, quiet and clean operation.
- **Added safety** – A 100% shut-off main gas valve will completely turn off all gas flow for added safety and protection, while our computerized control boards monitor your system 24 hours a day.
- **Durable** – Reinforced cabinets and gasketed doors ensure warm air goes where it's needed, quietly and efficiently.

HEAT PUMPS & AIR HANDLERS

DOING MORE WITH LESS AIR SOURCE HEAT PUMPS

Through innovative solutions it's now easier and more affordable to make your home comfortable. Air source heat pumps are an alternative and environmentally friendly option that absorbs heat from the outside air to heat your home in the winter and acts as a normal air conditioner in the summer. Talk about doing more with less!
